DB Sales is a leading manufacturers representative for boilers, industrial equipment, HVAC and plumbing products, serving Southern California since 1978. We can help you reduce energy costs, take advantage of energy efficiency rebates, and comply with emission regulations for new and retrofit systems. We can also rebuild most pumps to factory specifications right here in our machine shop.

DB Sales is a licensed service contractor and factory certified for all the equipment we sell. We know these systems inside and out, and our consultative approach will deliver the best solution for your building.
